

HEISTER HOUSE MILLWORKS

INTERIOR DOORS & HARDWARE

FOCUS ON QUALITY

Heister House Millworks has been providing our customers with quality pre-hung interior doors since 2002. While some companies produce hundreds of doors per day, our focus is more on the quality of the product and prevention of call backs. Our skilled employees have years of experience working with moulded doors, stile and rail wood doors, MDF doors, and even one of a kind, custom doors. We do it right the first time, every time!

Our door assembly team uses the latest in door hanging equipment and the best materials available. We have strict quality standards for our finger-jointed jamb and trim material, and we manufacture our own solid wood products from pine, poplar, oak and other wood species.

PREFERRED BRANDS & AVAILABILITY

The Heister House interior door line includes a wide selection of solid, veneered and moulded door options. We have a long standing supply relationship with some of the best door manufacturers in the country. Our moulded doors are supplied by the Jeld-Wen plant in Ludlow, VT and our wood doors come from Stallion Doors in Eden Prairie, MN. These companies provide us with top quality products in lead times that suit your production schedule. Finally, Heister House is a full-line distributor of Tru-Stile MDF doors and can supply their endless variety within a few weeks.

Jeld-Wen - one of the largest and most respected door and window manufacturers in the country provides Heister House with their full range of hollow and solid core moulded doors. We stock most moulded designs in a wide array of sizes.

Stallion - distinctive interior stile and rail wood doors in a nearly endless variety of panel and sticking designs and wood species options. Stallion is the perfect complement to the Heister House custom moulding product line. Custom sizes and specialty glass are not a problem for Stallion.

Tru-Stile - discerning customers love the thousands of design options offered by Tru-Stile and their MDF door line. We're experts at pre-hanging these high-end doors to our exacting quality standards. Upgrades like square corner and ball bearing hinges are a frequent request for Tru-Stile doors that are assembled by Heister House.

In addition, we can access door panels from other manufacturers including:

PRE-HANGING SHOP

Heister House features an interior door pre-hanging shop where we can hang your door into the frame for easy installation. This capability, coupled with our direct purchasing power, allows us to offer interior doors at very competitive prices. Plus, we have enough capacity to keep our lead times at acceptable levels.

AT HEISTER HOUSE WE KNOW HOW IMPORTANT IT IS TO KEEP YOUR JOBS ON SCHEDULE.

PREFINISHING

In order to save you time and money, we offer a beautiful and professional prefinishing for many of our interior door products. We ensure quality results by priming, painting, clear-coating, and staining hundreds of doors per week. Contact us for more information regarding color, finish options and pricing.

HARDWARE

For the convenience of our builders and contractors, Heister House Millworks also offers a number of the industry's most reputable hardware options. For those of you who are looking for superior quality hardware, Heister House offers an exceptional line of door parts, closet hardware, shelving, and a variety of accessories. Ask our specialists which parts will work best with your project.

We are proud to offer products from these respected vendors :

DESIGNS THAT INSPIRE... EXCELLENCE THAT ENDURES

Heister House Millworks is a premier local manufacturer of high quality wood mouldings, millwork and hardwood flooring products. The company was founded in July of 1988 when owners, Brad Lauver and Lorne Nipple, decided to merge their independent woodworking businesses into one operation. In its infancy, the company supplied wood mouldings to many of the local manufactured housing companies in the Susquehanna Valley.

While manufactured housing is still a core market for Heister House today, the company also sells to local home builders and remodelers. Recently, Heister House has expanded it's reach to the larger markets of Baltimore, Washington DC and Philadelphia.

Heister House's main office, located in Mt. Pleasant Mills, PA, features one of the most unique and comprehensive millwork showrooms on the East Coast. Homeowners from far and wide have utilized our showroom for design ideas and inspiration in selecting their mouldings, doors, hardwood flooring and custom millwork. Each of our showroom vignettes feature their own architectural detail and woodworking and collectively offer hundreds of style, design and wood options.
