PREFINISHED MOULDINGS & DOORS

A Fine Tradition in Wood Since 1988.

PREFINISHED MOULDINGS AND DOORS FROM HEISTER HOUSE MILLWORKS

Color Offering:

Extra White

Dover White

Antique White

Clear Coat

Specifications:

- All painted moulding and door products receive one coat of water based, white primer paint, followed by one coat of Sherwin-Williams brand top coat in the respective color
- All clear coated products receive 2 coats of Sherwin-Williams' water based clear-coat and sealer

**SHERWIN
WILLIAMS.**

Application:

- Mouldings are finished using high-speed, automated spray lines and gas-fired drying ovens
- Doors are prep sanded and sprayed with hand-held spray equipment and air-dried over night

BENEFITS

Quality

- A professional sprayed on finish

Cost Reduction

- We pass our cost efficiencies on to you
 - Less expensive than jobsite finishing
- Doors can be pre-finished, pre-hung, and shipped to your job site
- Avoid turning the garage into a painting operation for the moulding and doors
 - Don't sacrifice valuable storage space during construction
 - Less handling means less damage
 - Mouldings are bundled, taped, and palletized for easy handling

Short lead-times

- We can supply painted and clear coated door and trim packages to you in about 1 week for all stock products
- Pre-finishing may add 1 week to any special order lead-time

Reduces the amount of time your painter spends on the job = cost reduction

DESIGNS THAT INSPIRE... EXCELLENCE THAT ENDURES

Heister House Millworks is a premier local manufacturer of high quality wood mouldings, millwork and hardwood flooring products. The company was founded in July of 1988 when owners, Brad Lauver and Lorne Nipple, decided to merged their independent woodworking businesses into one operation. In its infancy, the company supplied wood mouldings to many of the local manufactured housing companies in the Susquehanna Valley.

While manufactured housing is still a core market for Heister House today, the company also sells to local home builders and remodelers. Recently, Heister House has expanded its reach to the larger markets of Baltimore, Washington, DC and Philadelphia.

Heister House's main office, located in Mt. Pleasant Mills, PA, features one of the most unique and comprehensive millwork showrooms on the East Coast. Homeowners from far and wide have utilized our showroom for design ideas and inspiration in selecting their mouldings, doors, hardwood flooring and custom millwork. Each of our showroom vignettes feature their own architectural detail and woodworking and collectively offer hundreds of style, design and wood options.
